

FINCA LA SOLEDAD

#meetlosamigos

**Finca La Soledad** located in the town of Buena Vista Michicoy in San Pedro Necta, Huehuetenango at an altitude of 1,600 masl. Although Don David is a small producer, he is very much dedicated to improve the taste of his coffee by focusing on his post-harvest process. The way he manages his post harvest process was for us very surprising. Don David, as well as many small producers, focuses on doing things with what he has. This behaviour usually has very creative results.

**Producer:** David Arcangel Ruiz

**Location:** Buena Vista Michicoy, San Pedro Necta, Huehuetenango, Guatemala.

**Altitude:** 1,600 meters above sea level

**Farm size:** 3.5 Hectars

**Coffee varieties:** Catuai

**Process:** Washed and sun dried on patios.

**Post Harvesting facilities:** Coffee manual depulper, water channels for clasification, wood boxes with plastic inner layer for fermentation.

**Harvest:** November - January
